

Chinese Professional Development Workshop for PCF Preschool Teachers

PROFESSIONAL DEVELOPMENT WORKSHOP SERIES FOR PRESCHOOL EDUCATORS - 2018

The Learning Connections' (TLC) Professional Development workshops have been created to support the current classroom climate in most preschools. Educators in the early childhood sector have a pressing need to continuously upgrade their teaching methodologies to keep up with the evolving needs of today's children. Our workshops aim to equip teachers with practical skills that they can apply in their classrooms immediately.

The Learning Connections (TLC) had the privilege of working with 90 passionate Chinese Language preschool teachers from PAP Community Foundation (NW District) on “Improving Teachers’ Efficacy in Class Engagement Using Drama Strategies”.

The interactive workshop was conducted by Melissa Leung, TLC’s head of Chinese Faculty/Mentor, who ensured that every teacher participated in the fun drama activities and experienced what learning through play means! Participants had an enjoyable time and they left the workshop with a few strategies on how to better engage young children through drama.
