

PROFESSIONAL DEVELOPMENT WORKSHOP AT SPRING BRAINY KIDZ 'Improving Teacher's Efficacy in Class Engagement Using Drama Strategies'

The Learning Connections (TLC) had the privilege of working with 12 passionate Chinese Language preschool educators from Spring Brainy Kidz on 25th August 2018. The highly interactive workshop aimed to introduce the teachers to drama conventions as an alternative teaching and learning approach of Chinese Mother Tongue Language to young children.

During the workshop, the teachers were given opportunities to interact with one other in varied activities such as drama games, tableaux (still images), thought-tracking and story box. As they explore how to use drama tools to improve class engagement, they developed more ideas for future application within the classroom and with their students!
